

WHY CHOOSE US

Dedicated Care Health Services is a community based health care organization serving the greater Washington DC metropolitan area, and specializing in high quality behavioral health care treatment.

Our goal is to improve the health of members of our community by providing quality, comprehensive and coordinated community based behavioral healthcare supports.

OUR AIM

Dedicated Care Health Services aims to support, empower and enrich the lives of residents of the District of Columbia who have been diagnosed with a behavioral health disorder through person-centered care.

OUR PROGRAMS

Through our programs, a consumer follows his or her own path to recovery by collaborating with staff to obtain skills for coping with life's stresses, and by working productively for their own benefit, the benefit of their family and loved ones, as well as for the greater community.
